## HINTS TO BICYCLE RIDERS.

'Tis not an unusual occurrence after a long bicycle ride for one's muscles to feel overworked and sore. Such is always the case with beginners, which almost makes them feel that the punishment is too much. The writer has had lots of experience in training cyclists and discovered that all soreness is quickly relieved by the use of Alligator Liniment. Its results are quicker than any other mixtures put up for treating the muscles. It does not grease or stain the clothes; dries quickly into the flesh. I take pleasure in advising the use of Alligator Liniment to cyclists, knowing it to be just the thing for relieving pain brought on by overwork.

Respectfully,

L. W. BICAISE,

Charleston, S. C.

Sept. 30, 1898.
